Okay thanks, Sara. That sounds good. Also, if you have any questions about the work we are doing, Jacob Runge is the staff lead for the CA project at EGLE so feel free to reach out to him or me anytime.

Thanks,
Molly

Subject: BASF Wyandotte

Hi Molly,

My Name is Sara, and I am a case manager in EGLE's WRD. I am currently working on a draft PFOS Administrative Consent Order (ACO) regarding Outfall 001A at the BASF Wyandotte facility. Recently, our Warren District Office has received some inquiries from The Friends of the Detroit River and the Sierra Club regarding the venting issue and the AOC that the EPA entered with BASF in 1994. I have talked with Tracy Kecskemeti from our Materials Management Division (MMD) and she indicated you are the EPA lead on this RCRA site. I wanted to reach out and let you know that I am including Tracy's email and your email in my response to these inquiries if they have specific questions on the already entered AOC and RCRA compliance.

Thank you!
